IWA World Water Congress & Exhibition
16-21 SEPTEMBER 2018 TOKYO, JAPAN

IWA DENMARK
the international
water association

[illegible]

Five days of critical discussions into
the future of sustainable water management

Over 9815 leading water professionals from 98 countries came together between the 16th and the 21st September 2018 to shape our water future. Thought-leadership permeated workshops, debates, business forums, keynote speakers, technical and training sessions. Networking opportunities enabled new insights and partnerships, showcasing new ideas and solutions to solve the global water crisis.

Danish Activities

124 Danish participants in Tokyo.

Large Danish pavilion – 15 exhibitors and common IWA2020 area together with the Nordic pavilion financed by Nordic Council of Ministers

Minister for Environment & Food Jakob Ellemann-Jensen participate Sunday and Monday (Grand Opening, speech at Resiliency Summit, Business Forum, Opening Reception and IWA2020 Reception at the Danish pavilion)

Danish Activities at the congress:

- 15 oral presentations, 6 workshops, 26 posters
- IWA2020 reception
- 3 Business Forums
- Poster sessions at the pavilion
- Utility Leaders Forum (DANVA co-organizer)
- Keynote by Lars Therkildsen, CEO, HOFOR Copenhagen

Sociale events:

Visit the Danish ambassador, branche dinners and excursion in cooperation with Tokyo Metropolitan Government.

IWA World Water Congress and Exhibition 2020

Water for smart liveable cities

Congress ambitions, summits and outcome

The current document outlines our ambition for IWA 2020 in Copenhagen. It is based on discussions in the water sector, the Danish steering group for IWA 2020 and it outlines our ambition for the congress as well as suggestions for legacy topics and the outcome we would like to see from the congress. This paper outlines topics and elements to be further discussed and developed in close cooperation between the Danish host organisation and IWA.

The document outlines the building blocks as a background for the conference, the Danish crosscutting water experiences to bring into the conference, and presents a core narrative of specific and technical Danish lessons learned that we aim to discuss with the global water sector in 2020.

EXPECTATIONS FROM COPENHAGEN 2020

- Provide vision and inspiration on how water can create **smart and livable cities** of the future (visionary thinkers + compelling speakers).
- Convene a high level summit with City Officials to support the **Cities of the Future and its associated Water Wise Principles**.

AND attract 10, 000 participants

- Demonstrate strong **partnerships with the region** (Nordic & Baltic)
- Provide a congress that expands IWA's reach to **Industry & Agriculture** sectors
- Advance the opportunities for **Young Water Professionals and Emerging Water Leaders**
